DAYSTARR CLOUD-BASED PHONES

PLATINUM:

With its elegant and sleek design, this platinum-level, 7-inch, color, high-resolution, touch screen will look fantastic on any desk. The fully adjustable display is perfect for viewing in a variety of settings. This phone includes an intuitive user interface with icons and soft keys. Enjoy the ease of built in Bluetooth.

GOLD:

The gold-level phone has a 4.3-inch color display with a fully adjustable screen. This phone includes three pages of various transfer keys, as well as built-in Bluetooth. The intuitive user interface with call park and call history allows you to be more efficient.

BASIC:

This entry-level phone is great in most work environments and includes many features without sacrificing high-definition voice. This black-and-white, 3.7-inch screen is fully adjustable.

SOFTPHONE APP:

Our softphone application is a flexible and cost-effective solution that can be used without (with a small monthly fee) or in conjunction with physical phones. This software allows you to make and receive calls directly from any device. Enjoy visual voicemail and work remote using your business's main number on your device.
